

Subject: Application for [Job Title] - Abdul Faheem A

Dear [Hiring Manager name],

This is Faheem, eager to contribute my Cybersecurity expertise to the [Job Title] position at [Company name]. At Hubstream, I've actively identified and patched vulnerabilities, demonstrating a strong understanding of both offensive and defensive security practices.

As a full-stack developer (C#, Angular, Mssql), I'm not just a pen tester; I build secure applications from the ground up. I've successfully trained colleagues on social engineering and championed the adoption of security tools like Snyk and SonarQube, proactively improving our security posture.

My passion lies in leveraging my technical skills (Python, Linux, Web3, Docker, etc.) to build robust and secure systems. I'm a quick learner and eager to contribute to a challenging and rewarding environment.

Thank you for your time and consideration. I have attached my resume for your review and look forward to the opportunity to discuss my qualifications further.

Have an amazing day!

Faheem
