To: Hiring Manager

Company: [Company Name]

Position: [Job Title]

Dear Hiring Manager,

I am writing to express my strong interest in the [Job Title] position at [Company Name]. As a Security Engineer and Product-Focused Technologist with extensive experience in cybersecurity, automation, and full-stack development, I am excited about the opportunity to contribute to your team's success and drive innovation in security solutions.

In my current role as Software Engineer (Security & R&D) at Hubstream India Pvt Ltd, I have successfully bridged the gap between engineering and security teams while delivering measurable results. I conducted comprehensive penetration testing across product suites, built automated installer tools for IIS-based deployments, and integrated security tools like Snyk and SonarQube into CI/CD pipelines. These initiatives reduced manual effort by 40% and accelerated release cycles through secure DevOps practices.

My entrepreneurial experience includes leading a Digital Forensics & AI Security startup where I prototyped AI-powered forensic tools for real-time incident analysis and managed a founding team of three members. Additionally, as Lead of the Trust Null Security Team, I've built a cybersecurity automation team focused on ethical hacking R&D while mentoring peers on secure coding and defense techniques.

What sets me apart is my unique combination of technical expertise and business acumen. I possess strong skills in:

- **Cybersecurity:** Penetration testing, vulnerability management, OWASP, ethical hacking, and DevSecOps
- **Engineering:** Python, C#, Angular, Docker, CI/CD, and Azure DevOps
- **Leadership:** Product roadmap development, program management, and team mentoring
- **Business Strategy:** Risk assessment, business analysis, and stakeholder management

My educational background includes a B.Tech in Information Technology with a CGPA of 8.75/10, complemented by certifications including Certified Ethical Hacker (CEH) and specialized training from IIT Bombay. I am passionate about integrating AI with security

systems to drive innovation and have hands-on experience in managing startup projects while aligning technical initiatives with business goals.

I am particularly drawn to [Company Name] because of [mention something specific about the company/role that interests you]. I believe my proven track record in security engineering, product development, and cross-functional leadership would make me a valuable addition to your team.

I would welcome the opportunity to discuss how my experience in cybersecurity, automation, and product development can contribute to [Company Name]'s continued success. Thank you for considering my application. I look forward to hearing from you.

Sincerely,

Abdul Faheem A

Instructions for use:

1. Replace [Job Title] with the specific position you're applying for
2. Replace [Company Name] with the target company
3. Insert the current date
4. Add specific details about why you're interested in that particular company/role in the indicated section
5. Update your LinkedIn profile URL if needed
